**If you are manufacturing or performing maintenance
for Military /Space Markets , EMA can solve also your
obsolete components problems ..!**

Where We Are

E-MAIL : info@ema-italy.com

P.IVA : 14457651009

Which is Our Core Business

- to sell world wide spread a long list of all type of electronics and mechanical components some of them no more available in the market : roughly 23.000 different codes available in our store
- To buy electronics components inventory excess in factories
- To sell by our american sister company all type of mechanical or electronics components and devices available on USA market used on any MIL/SPACE production
- To developpe and produce customized components

About EMA

EMA Is a Company where the staff has a long and successful experience (more than 30 years) in servicing the military, professional and aerospace industries.

We currently offer support to our customers in the below mentioned industries, through localization and distribution of electrical, mechanical, and electronic materials and components; **We are specialized in sourcing obsolete active & passive electronic and mechanical components.**

We offer this service currently through a strategic representation in Roma , through our sisters company ESC and HIG and also through METROPOLITAN AIRCRAFT PARTS INC .U.S.A. a broker, distribution organization, which has serviced various international markets since 1962.

Our most important customers are LEONARDO (FINMECCANICA Italy) , TECNO SKY, ELETTRONICA, NORTHGROUP GRUMMAN, RGM SPACE and more

EMA defence customers

EMA organization

- In Roma we have large warehouse composed by approximately 23000 different items (various electrical, electronic, and mechanical components) **most of them obsolete and many of them conform to U.S.A. military, NATO military, and SPACE industry specifications.**
- by our web site you can easily find what are you looking for with detailed available quantities
- By email it is possible to receive in one-two days the offer related to the requested components
- In below slides it is possible to have an idea about our store

ESC partnership company

- Company manufactures and supplies an increasingly wide range of products including Relays, Timers, Sensors and other precision products designed for demanding, hazardous and harsh environments.

ESC partnership company

- **Company key employees and engineering staff have over 20 years experience in providing customers with innovative and quality products for the demanding requirements of the Defence, Aerospace and Commercial markets at competitive pricing.**
- **Actual stock of material, sub assemblies and finished parts has been developed to offer to the Customer the very best Lead Times and reliability to satisfy strong requirements in very short time.**
- **Business contacts and experience developed over many years may also be able to assist you in locating product in short time , with stock of discontinued product when this is the only option.**
Company is qualified and approved under ISO 9001.

ESC partnership company

ESC products Include:

- Relays
- Time Delay Relays
- Voltage Level Sensors (DC and AC)
- Current Sensors
- Frequency Sensors
- Three Phase Sequence Sensors
- Three Phase Current Sensors

PERRY JOHNSON REGISTRARS, INC.

Certificate of Registration

Perry Johnson Registrars, Inc., has audited the Quality Management System of:

Metropolitan Aircraft Parts, Inc.
172 Cabot Street, West Babylon, NY 11704

*(Hereinafter called the Organization) and hereby declares that
Organization is in conformance with:*

ISO 9001:2015 and AS9120B

This Registration is in respect to the following scope:

Wholesale Distribution of Fasteners and General Hardware

(The assessment was performed in accordance with AS9104/1:2012-01. PJR is accredited under the ICOP scheme)

*This Registration is granted subject to the system rules governing the Registration referred to above, and the
Organization hereby covenants with the Assessment body duty to observe and comply with the said rules.*

Terry Boboige, President

Perry Johnson Registrars, Inc. (PJR)

March 1, 2018

Expiration Date:
February 28, 2021

Certificate No.:
C2018-00512

Hi-G Partnership company

- **Hi-G has plenty experience in manufacturing high quality hermetically sealed relays to meet military and aerospace specifications and applications.**
- **Hi-G offers a completely interfaced and fully integrated organization with a total capability for manufacturing and design, with fully equipped and up to date test and reliability laboratories, calibration facilities, purchasing, sales, distribution, administration, etc... all harmonised in a Quality System that is approved and qualified to ISO 9001 and AQAP Application**
- **- military and aerospace system - satellites - control equipment - instrumentation of all type - industrial process control - civil aviation- engine management- business and office machines- computer peripheral equipment- portable test equipment**

H.I.G. Partnership company

- **Military Products**

All relays supplied with Military Specification reference, have been subject to rigid inspection for quality conformance and a comprehensive schedule of test and acceptance requirements, in accordance to National military standard (NK-2C) and specification (i.e. Mil-PRF-39016), under the surveillance of the Italian MINISTRY of DEFENCE, D.G. TELEDIFE (previously TELECOMDIFE).

- **CECC Products**

CECC (CENELEC Electronic Components Committee). All relays supplied with this registered Mark, have been subject to rigid inspection for quality conformance and a comprehensive schedule of test and acceptance requirements, under the surveillance of the independent inspectorate: OVE.

Hi-G Partnership company

- **Commercial Products**

Hi-G offers a wide variety of commercial, industrial and special design relays, to meet the needs of customers whose applications require the advantage of qualified relay type, but who are unable to find a device within the military and CECC specifications. The devices operate reliably under extreme environmental conditions and are designed to survive where other competitive relays may not.
